

# Global Accounting And Audit Firm Seeks Validation Of Digital And Organizational Transformation Strategy With Mythos Group

## EXECUTIVE SUMMARY

- Our client is a global account and audit firm helping organizations and individuals create value.
- Their purpose is to build trust in society and solve important problems.

## THE OPPORTUNITY

- The client was in the process of undertaking one of the largest initiatives to date by the firm to provide its auditors with a new, more efficient, productive platform.
- The state-of-the-art auditing platform was envisioned to improve efficiency by reducing redundant manual steps and workarounds, improve collaboration between colleagues and their clients, and reduce financial liability and exposure.
- It would impact nearly 150,000 employees across five continents.

## AT A GLANCE

**INDUSTRY**  
Accounting

**ORG SIZE**  
328,000

**US/INTERNATIONAL**  
Headquarters in  
England/International

**REVENUE**  
\$50B

## OUR ASSESSMENT

Mythos Group became the client's unbiased and objective view in supporting the global deployment of Auditor's Work Space (AWS).

Key areas they provided help in were:

- Sufficiency—ensuring the transformation management artifacts produced was sufficient to support the deployment.
- Risk Identification—assessing and mitigating potential risks in the initiative.
- Feasibility—ensuring the proposed timelines and resources were acceptable to deploy AWS as planned.

## WHAT WE DID

Mythos Group provided strategic change management advisory and directed an independent change audit to review the strategies developed to support the initiative.

- Over 100 key artifacts were reviewed and analyzed.
- Interviews were conducted with senior executives and key stakeholders to solicit their perspectives on AWS impact, their pain points, potential resistance, level of satisfaction with the transition management sub-team strategies, and confidence in the successful deployment of AWS.
- Executive workshops were facilitated by Mythos to share their findings and recommendations based on the review of over 100 key artifacts, interview findings, and identification risks.
- Partnered with the leadership team to develop a global governance structure to ensure close coordination, collaboration, and knowledge sharing among the AWS core team, global assurance, euro firms, regional PMO, and territories.

## MAKING A DIFFERENCE

The refined change management plans incorporated industry best practices and Mythos Group's insights to support the initiative with an emphasis on communication, cultural interventions, and organizational alignment.

## KEY RESULTS

- New standardized audit model
- Total impactable cost \$3.5 billion
- Projected 25% aggregate savings over 5 years with 95% revenue retention
